

Where your money has been spent in 2021:

£3000 has been set aside for the purchase of a new stage. This, we felt would be a tremendous morale boost to everyone involved with the school and a great way to welcome back parents, relatives and carers when the guidelines allow us to do so.

£530 to the SEND team for books and additional resources.

£210 Maths resources to enable children to become more confident and independent in Maths.

£167 Science safety equipment to allow children to perform their own experiments.

£506 on new books to encourage our children's love of reading. Some of this money has been spent on additional books for the 20 Greatest Reads scheme which encourages children to try new authors.

£350 for a complete set of new Thesaurus to encourage children to use more advanced vocabulary in their independent writing.

Money has also been allocated to any year groups who have not already directly benefited from funds this year. The school has also managed to set aside money for the year 6 leavers gifts/event.
